Meet Straight Tail, king of Gir National Park in India. Gir is now the only remaining home of the Asiatic Lions, who are themselves the last lions left in the world outside of Africa.

Life as a male lion is not easy and keeping control over a vast kingdom is even harder still. Straight Tail's brother, Bhaanu, has mysteriously disappeared, meaning he's left on his own now to guard kilometres of beautiful, prey-abundant land. Rival lions are closing in and they've got their eyes set on what Straight Tail has.

But unknown to them all, a greater threat lurks.

A deadly virus, Canine Distemper Virus (CDV) has made its way into the lion population, with scores of lions already having perished. In Africa, the spread of CDV killed thousands of lions.

Much like humanity now, they must battle this unseen threat.

Can they survive? Or will the last of the Asian lions be confined to the history books?

## The Characters

Straight Tail, like the kings of old, has several queens who in turn bear him several potential heirs to his throne. However, now that he no longer has his brother around to help guard them, his queens and his cubs are in danger.

Several groups of rival lions have started encroaching on his area.

**The Raju Coalition** is a group of three young male lions, kicked out by their paranoid father at a young age. They've been forced to live as nomads all their lives and now, they're ready to finally claim a kingdom of their own.

**Veer** is the most powerful lion in Gir, apart from Straight Tail. He has long clashed with our king, but when Bhaanu was still around, he could not beat them both. Now, the fight is even and the opportunity is wide open...

**Devraj** is a new and rising force in Gir. Having just come of age, he is at the prime of his powers and the most alluring option for the young lionesses of Straight Tail's pride.

**Kachia** is Straight Tail's oldest mate. She is wise and canny and she's been shifting her group around to avoid being found by one of Straight Tail's rivals.

But **Collarwali**, Straight Tail's youngest mate, cannot do the same. She's just given birth to three infant lion cubs. Her group is small and defenceless. Will they be able to survive against such tough odds?

Straight Tail's young and vulnerable cubs. How will they survive this difficult monsoon when there are dangers and perils everywhere?
